

## Westeel "Seed-Stor" Hopper Bottom Bin

Seed-Stor is designed for farmers who grow seed, or for those who want super-fast, controlled unloading. They combine Westeel's unstiffened Wide-Corr technology with a Westeel cone in an affordable all-in-one package. They can be installed on any properly prepared gravel foundation. Over-eave rail, remote vent cap opener, sidewall ladder, full bin indicator and removable hopper-to-ground ladder are all included.
