Feeding Organic Poultry

Directions for Feeding Country Junction Organic Poultry Feeds

ORGANIC 20% Poultry Starter

This should be the sole ration to chicks up to 6 weeks of age.

Oyster shell or insoluble grit could be sprinkled on the feed at a rate of 0.5 to 1.0 kg/ 100 birds.

Organic 17% Poultry Grower

This feed should be fed as the sole ration to replacement laying chicks from 7 to 18 weeks of age. You can feed Organic 17% Poultry Grower to growing poultry from 5 weeks of age to market weight or until production starts. This would be approximately 5% egg production.

17% Poultry Layer made with 88% Organic Products

This feed is designed to be fed to layer hens from 5% lay to the end of lay. Poultry Layer is intended to be fed about 95 - 110 grams /hen/day however feeding rate will depend on strain of bird, body weight, condition, and barn temperature. Oyster shell or insoluble grit can be sprinkled on feed once a week at a rate of 0.5–1.0 kg/100 birds.

NOTE; Always allow birds access to fresh water at all times.

Country Junction Organic Feeds are certified organic by Pro-Cert Organics Ltd.

Saskatoon, Saskatchewan

Country Junction Organic Poultry Feed

Designed for organic poultry producers by a leading nutritionist.

- Balanced diet to promote health, growth and production
- Contains organic flax to ensure fatty acid 3 to aid in reproduction and immunity of the birds
